It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States-which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean-it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts-it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7-it is nevertheless an essential record of one of the most transformational events of modern times.

A 2019 Goodreads Readers' Choice Finalist for Best History A Washington Post Notable Nonfiction Book of 2019 A New York Post Best Book of 2019 Now with a new afterword, Garrett M. Graff's instant New York Times bestseller The Only Plane in the Sky, is the comprehensive oral history of September 11, 2001 that has been called " history as its most immediate and moving " (Jon Meacham) and " remarkable...a priceless civic gift " (The Wall Street Journal). Hailed as " remarkable...incredibly evocative and compelling " (The Washington Post) and " oral history at its finest " (Pittsburgh Post-Gazette), Garrett M. Graff's The Only Plane in the Sky is the most vivid and human portrait of the September 11 attacks yet, comprised of never-before-published transcripts, recently declassified documents, and original interviews and stories from nearly five hundred government officials, first responders, witnesses, survivors, friends, and family members. Here is a vivid, profound, and searing portrait of humanity on a day that changed the course of history, and all of our lives.
