The key to writing an analysis paper is to choose an argument that you will defend throughout your paper. In this case, you will do an analysis of a specific topic. Your argument will focus on a thesis, which you will present as a thesis statement. For example: Maybe you are writing a critical analysis paper on Captain America: Civil War. If you are allowed to choose your topic, you might choose to analyze how the movie handled the issue of national security versus personal freedom.

A luminous, powerful novel that establishes Rachel Cusk as one of the finest writers in the English language A man and a woman are seated next to each other on a plane. They get to talking about their destination, their careers, their families. Grievances are aired, family tragedies discussed, marriages and divorces analyzed. An intimacy is established as two strangers contrast their own fictions about their lives. Rachel Cusk's Outline is a novel in ten conversations. Spare and stark, it follows a novelist teaching a course in creative writing during one oppressively hot summer in Athens. She leads her students in storytelling exercises. She meets other visiting writers for dinner and discourse. She goes swimming in the Ionian Sea with her neighbor from the plane. The people she encounters speak volubly about themselves: their fantasies, anxieties, pet theories, regrets, and longings. And through these disclosures, a portrait of the narrator is drawn by contrast, a portrait of a woman learning to face a great loss. Outline takes a hard look at the things that are hardest to speak about. It brilliantly captures conversations, investigates people's motivations for storytelling, and questions their ability to ever do so honestly or unselfishly. In doing so it bares the deepest impulses behind the craft of fiction writing. This is Rachel Cusk's finest work yet, and one of the most startling, brilliant, original novels of recent years. In Outline of a Theory of Practice, Bourdieu questions the preeminent ideas of social anthropologists such as Levi-Strauss who stressed the structural principles governing human action rather than the actions themselves and, Bourdieu asserts, doesn't account for all observable nuances of behaviour. Drawing on his fieldwork in Algeria, he expresses the need for a theory of practice focusing on the dynamic flow of human actions in the social world. Bourdieu coins the term "habitus"- a relational concept linking structures to the practice of agents. Outline is a significant and original contribution, providing an account of many of the issues Bourdieu continued to develop through his career.
