It's in this sense that Britannia was a 'failed' state, by the end of Roman rule Britons were still thinking in tribal identity terms rather than as part of a larger political entity. Personally I think he stretches the case to suggest tribes were still trying to redress perceived injustices of tribal boundaries from 400 years earlier.

It shows how tribal conflict was central to the arrival of Roman power in Britain and how tribal identities persisted through the Roman period and were a factor in three great convulsions that struck Britain during the Roman centuries. It explores how tribal conflicts may have played a major role in the end of Roman Britain, creating a 'failed state' scenario akin in some ways to those seen recently in Bosnia and Iraq, and brought about the arrival of the Anglo-Saxons.
