Sharon M. Draper presents " storytelling at its finest " (School Library Journal, starred review) in this New York Times bestselling Depression-era novel about a young girl who must learn to be brave in the face of violent prejudice when the Ku Klux Klan reappears in her segregated southern town. Stella lives in the segregated South—in Bumblebee, North Carolina, to be exact about it. Some stores she can go into. Some stores she can' t. Some folks are right pleasant. Others are a lot less so. To Stella, it sort of evens out, and heck, the Klan hasn' t bothered them for years. But one late night, later than she should ever be up, much less wandering around outside, Stella and her little brother see something they ' re never supposed to see, something that is the first flicker of change to come, unwelcome change by any stretch of the imagination. As Stella ' s community—her world—is upended, she decides to fight fire with fire. And she learns that ashes don ' t necessarily signify an end.

When a burning cross set by the Klan causes panic and fear in 1932 Bumblebee, North Carolina, fifth-grader Stella must face prejudice and find the strength to demand change in her segregated town.

In this debut YA friendship story set in Saudi Arabia, two girls navigate typical teen issues—crushes, college, family expectations, future hopes, and dreams. Sixteen-year-olds Leena and Mishie are best friends. They delight in small rebellions against the Saudi cultural police—secret Western clothing, forbidden music, flirtations. But Leena wants college, independence—she wants a different life. Though her story is specific to her world (a world where it's illegal for women to drive, where a ten-year-old boy is the natural choice as guardian of a fatherless woman), ultimately it's a story about friendship, family, and freedom that transcends cultural differences. - GODWIN BOOKS -

Reading by Starlight explores the characteristics in the writing, marketing and reception of science fiction which distinguish it as a genre. Damien Broderick explores the postmodern self-referentiality of the sci-fi narrative, its intricate coded language and discursive 'encyclopaedia'. He shows how, for perfect understanding, sci-fi readers must learn the codes of these imaginary worlds and vocabularies, all the time picking up references to texts by other writers. Reading by Starlight includes close readings of paradigmatic cyberpunk texts and writings by SF novelists and theorists including Isaac Asimov, Arthur C. Clarke, Brian Aldiss, Patrick Parrinder, Kim Stanley Robinson, John Varley, Roger Zelazny, William Gibson, Fredric Jameson and Samuel R. Delaney.

Outlines a step-by-step process for reconnecting with one's life purpose, drawing on research in psychiatry and neurology while sharing inspirational tips for changing one's perspective, overcoming roadblocks, and experiencing greater fulfillment.

Her brother ' s letter touched a match to the wick of Annie ' s doused dreams. Dream enough for her, to stroll the length of a town without the abortive glances, the stilted greetings, the wider berth given her on the sidewalk. " I could use some help out here, " he wrote. " What ' s holding you to Iowa anyway? " Annie Rushton leaves behind an unsettling past to join her brother on his Montana homestead and make a determined fresh start. There, sparks fly when she tangles with Adam Fielding, a visionary businessman-farmer determined to make his own way and answer to no one. Neither is looking for a partner, but they give in to their undeniable chemistry. Annie and Adam ' s marriage brims with astounding success and unanticipated passion, but their dream of having a child eludes them as a mysterious illness of mind and body plagues Annie ' s pregnancies. Amidst deepening economic adversity, natural disaster, and the onset of world war, their personal struggles collide with the societal mores of the day. Annie ' s shattering periods of black depression and violent outbursts exact a terrible price. The life the Fieldings have forged begins to unravel, and the only path ahead leads to unthinkable loss. Based on true events, this sweeping novel weaves a century-old story, timeless in its telling of love, heartbreak, healing, and redemption embodied in one woman ' s tenacious quest for control over her own destiny in the face of devastating misfortune and social injustice.

Irish-born Anne Bonny is only a teenager when she is left destitute by her mother ' s death. Abandoned by her father, she seems destined to be forgotten by the world. But Anne chooses to seek her fortune in the lush tropics of the colonial West Indies, where she passes herself off as a young man named Bonn. She finds work as a ship ' s hand, sailing under the command of Calico Jack Rackam, a notorious and charismatic pirate with a bounty on his head. Calico Jack has his heart set on raiding the Madrid Galleon, the richest ship in the Caribbean, which sails from Kingston laden with Cuban gold and Jamaican rum. Bonn is entranced by the sea and by the ship ' s violent crew, which includes a mysterious swordsfighter named Read, who, it turns out, has a secret life of his own. Calico Jack soon discovers Bonn ' s and Read ' s true identities, but it is only when the three pirates are captured that their darkest secrets begin to surface. In the shadow of the gallows, a strange twist of fate reveals a shocking betrayal that may save Bonn from death, while permanently changing everything she has known about her past and the world around her. Gorgeously written and full of mystery, intrigue, and startling revelations about gender, race, history, and the human heart, Kingston by Starlight is a once-in-a-lifetime read.
