The CIOMS guidelines state that
informed or valid consent must
address three questions: (1) does the
patient have the capacity to consent
requiring consideration of such issues

Where To Download Cioms Iii Guidelines

as age, maturity, cognitive ability; (2) is the consent voluntary (i.e., is the decision made free from coercion, inducement, or intimidation including pressure from a family member); and (3) has the patient received sufficient information on which to base his/her decision?
