Rev. ed. of: Foundations of psychiatric mental health nursing / [edited by] Elizabeth M. Varcarolis, Margaret Jordan Halter. 6th ed. c2010.

Preceded by Varcarolis' foundations of psychiatric mental health nursing. 7th ed. / [edited by] Margaret Jordan Halter. c2014.

Ideal for any student or health care professional who needs an authoritative text that is sharply focused on clinical psychiatry, this book contains the most relevant clinical material from the bestselling "Kaplan and Sadock's Synopsis

# Get Free Comprehensive Text Of Psychiatry 8th Edition

of Psychiatry, 10th Edition" and includes updated information on recently introduced psychiatric drugs.

Kaplan & Sadock's Study Guide and Self-Examination Review in Psychiatry is a comprehensive review of the specialty and perfect for stand-alone review or as preparation for the PRITE in-service, ABPN Part I, and recertification examinations. The book contains more than 1,600 multiple-choice questions and answers, with explanatory discussions of correct and incorrect responses. Chapters parallel the essential corresponding chapters in Kaplan & Sadock's Synopsis of Psychiatry, a staple of psychiatry education around the globe. Terms and definitions are consistent with DSM-IV-TR and ICD-10.

The 'New Oxford Textbook of Psychiatry' is one of the leading reference works in this field. Bringing together over 200 chapters from the leading figures in the discipline, it presents a comprehensive account of clinical psychiatry, with reference to its scientific basis and to the patient's perspective throughout. In the 8 years since publication of the first edition, many new and exciting developments have occurred in the biological sciences, which are having a major impact on how we study and practise psychiatry. In addition, psychiatry has fostered closer ties with philosophy, and these are leading to healthy discussions about how we should diagnose and treat mental illness. This new edition recognises these and other developments. Throughout, accounts of clinical practice are linked to the underlying science, and to the evidence for the efficacy of treatments. Physical and psychological treatments, including psychodynamic approaches, are covered in depth. The history of psychiatry, ethics, public health aspects, and public attitudes to psychiatry and to patients are all given due attention. The 'New Oxford Textbook of Psychiatry' will

# Get Free Comprehensive Text Of Psychiatry 8th Edition

continue to serve the profession as an authoritative and comprehensive reference.

This is a spin-off from Stephen M. Stahl's new, completely revised and updated version of his much-acclaimed Prescriber's Guide, covering drugs to treat depression.

It's really 2 books in 1! The first half provides the diagnostic information needed to create a care plan; the second half covers the safe administration of psychotropic medications. And, the concepts can be applied to a variety of healthcare settings...from in-patient hospitalization through the outpatient clinic...to home health and private practice.
