A guide to residential electricity for professionals and laymen, discussing tools and materials, and offering instruction on how to design electrical wiring, install main service panels, install fixtures and appliances, and other tasks.

Nelson Education is pleased to present the only Canadian Electrical Wiring Series on the market. This sixth Canadian edition of *Electrical Wiring: Residential* focuses on the technical skills required to perform electrical installations and is based on the 2012 edition of the Canadian Electrical Code, Part I: The Safety Standard for Electrical Installations (CEC). This entry-level text is both comprehensive and readable. It is suitable for colleges, technical institutes, vocational/technical schools and electrical programs in high schools, and for readers who want to study the subject on their own. Topics include: calculating conductor sizes, calculating voltage drop, sizing services, connecting electrical appliances, grounding and bonding equipment, and installing recessed fixtures. These are critical skills that can make the difference between an installation that ?meets code? and one that is exceptional.

This user-friendly, practical guide provides a thorough and effective introduction to the essentials of electrical grounding and bonding. Written in accordance with the 2014 National Electrical Code, **ELECTRICAL GROUNDING AND BONDING**, Fourth Edition, features complete, up-to-date coverage of Article 250 requirements. The text's detailed explanations, real-world examples, and vibrant, full-color illustrations
