Question Papers 2012 Fitting Machining

Software Engineering is discussed as a branch of Engineering specialising in software intensive products. The process of developing good software is discussed and it is argued that writing programs, though obviously an essential step in the process, is only a small part of Software Engineering.

Structured programming: A minor part of software engineering

Team automata have been proposed in Ellis (1997) as a formal framework for modeling both the conceptual and the architectural level of groupware systems. Here we define team automata in a mathematically precise way in terms of component automata which synchronise certain executions of actions. At the conceptual level, our model serves as a formal framework in which basic groupware notions can ...

Synchronizations in Team Automata for Groupware Systems

Summarizing, knowledge engineering will be compared to software engineering which will suggest to view knowledge acquisition as a workbench of methods and techniques that are special to the former. The paper will close with the insights I gained on the workshop about the relevance of knowledge engineering for data base engineering, and vice versa.
