Solutions and organisational driver. It shows that environments, ideas and values change; the interconnectivity of society; that the planet must be respected as a resource; and that people are affected/influenced by the information they receive and the way it is presented. It is emphasised that accounting and accountability are key aspects of every person 's life and that the practice of accounting, while often being seen as very technical in nature, has many social implications. Learning accounting through the lens of sustainability and the environment embeds this perspective in students ' minds so that in their careers they will actively seek and use accounting information to make decisions that take into consideration accountability for the environment. Premium online teaching and learning tools are available on the MindTap platform. Learn more about the online tools here:

Scott reveals vast amounts of financial accounting information drawn from recent research that has until now been hidden in academic journals. He provides a clear, easy-to-use framework for students to (1) place this information in a financial accounting context, (2) explain and analyze the information intuitively and (3) to reveal the information's relevance in understanding the practice of accounting.

The most highly regarded resource in financial accounting has been revised and updated to prepare today's students for future career success. The ninth edition of Craig Deegan's Financial Accounting features: the most recent changes to the IASB Conceptual Framework for Financial Reporting and the Australian Accounting Standards a fully revised
