Middle-class savers and entrepreneurs face being hammered by a multi-billion-pound tax raid under plans being considered by the Chancellor to repair the public finances.

“ An upbeat chronicle of [Clavel ’ s] children ’ s school experiences in Hong Kong, Shanghai, and Tokyo...[offering] advice about vetting schools and enriching children ’ s education. ” —Kirkus Reviews “ An intriguing volume on the differences in global education. ” —Library Journal A must-read firsthand exploration of why Asian students are outpacing their American counterparts and how to help our children excel in today ’ s competitive world. When Teru Clavel had young children, she watched her friends and fellow parents vie for spots in elite New York City schools. Instead of losing herself in the intensive applications and interview process, Teru and her family moved to Asia, embarking on a decade-long journey through the public schools of Hong Kong, Shanghai, and Tokyo. These schools were low-tech and bare-bones, with teachers who demanded obedience and order. In Hong Kong, her children ’ s school was nicknamed The Prison for its foreboding facilities, yet her three-year-old loved his teachers and his nightly homework. In Tokyo, the students were responsible for school chores, like preparing and serving school lunches. Yet Teru was amazed to discover that her children thrived in these academically competitive cultures; they learned to be independent, self-confident, resilient, and, above all, they developed a deep love of learning. When the family returned to the States, the true culture shock came when the top schools could no longer keep up with her children. Written with warmth and humor, World Class is a compelling story about how to inspire children to thrive academically. “ Studded with lists of useful tips about choosing schools and hiring tutors, for parents who must advocate for their children and supplement gaps in their educations ” (Publishers Weekly) and an insightful guide to set your children on a path towards lifelong success.

Two experts show you how to boost your speaking and marketing skills and make money by giving riveting presentations. World Class Speaking is the one-stop-shop for building breakthrough presentations & turning them into a solid system of ongoing income.

What gives the world's best leaders the edge? Will Greenwood is best known for being an integral part of the 2003 Rugby World Cup-winning team. Ben Fennell has spent over 16 years helping the world's biggest businesses and brands grow. Together, they have established that world-class performance - in both business and sport - requires a fresh approach, and a new set of behaviours. Having spoken to inspirational leaders across all areas of business and sport, including Michael Johnson, Tanni Grey-Thompson, Rio Ferdinand, Dame Carolyn McCall, Dave Lewis and Sir Clive Woodward, the authors have identified the key characteristics of world-class performance. These guiding principles of celebrating difference, forging togetherness and accelerating growth constitute a new framework for modern leadership. Packed with insightful personal stories, and often painfully learnt lessons, Will and Ben offer a new playbook for world-class leadership, learning and growth.

Andreas Schleicher - initiator of PISA and an international authority on education policy - offers a unique perspective on education reform.

In the 20th century, the United States was the world leader in education--the first country to achieve universal secondary education and the first to expand higher education beyond the elite class. Now other countries are catching up and leaping ahead--in high school graduation rates, in the quality and equity of their K-12 education systems, and in the proportion of

students graduating from college. It is not that American education has gotten worse so much that education in other parts of the world has gotten so much better, so fast. Designed to promote conversation about how to educate students for a rapidly changing and increasingly borderless and innovation-based world, this comprehensive and illuminating book from international education expert Vivien Stewart is not about casting blame; it is about understanding what the best school systems in the world are doing right for the purpose of identifying what U.S. schools--at the national, state, and local level--might do differently and better. Here, you'll consider

- \* How the U.S. education system fares against emerging international standards of excellence.
- \* The policies, practices, and priorities of the world's best-performing systems, along with specific ideas for adapting these approaches for U.S. schools.
- \* The common factors characteristic of high-performing and rapidly improving systems.
- \* New models of 21st century teaching and leadership and ways to modernize curriculum, instruction, and assessment.
- \* How technology and international exchange can help the United States close performance gaps and reach new levels of excellence and equity.

Learning goes both ways, Stewart writes. Other countries have learned a great deal from the United States, and now it is time for American educators to open their eyes to other nations' globally-minded and future-focused practices, leverage existing assets, and create a truly world-class education system for this generation of students and generations to come.

Prepare your students for the globalized world! To succeed in the global economy, students need to function as entrepreneurs: resourceful, flexible and creative. Researcher and Professor Yong Zhao unlocks the secrets to cultivating independent thinkers who are willing and able to create jobs and contribute positively to the globalized society. This book shows how teachers, administrators and even parents can:

- Understand the entrepreneurial spirit and harness it
- Foster student autonomy and leadership
- Champion inventive learners with necessary resources
- Develop global partners and resources

Schools that want to be world class are now paying attention to the findings from neuroscience and psychology that tell us we can build better brains. They are changing their mindset, expecting success for far more students and no longer being constrained by ideas of genetic potential. High Performance Learning provides readers with a ground-breaking and approachable model for achieving high levels of academic performance for all students and schools. It takes what is known about how people reach advanced cognitive performance and translates it into a practical and user-friendly framework, which can be used with all students to systematically build the cognitive thinking skills and learner behaviours that will deliver success in school, in the workplace and in later life. Flexible and adaptable, High Performance Learning can be used in any context, with any curriculum and at any age. It does not require separate lessons but rather becomes the underpinning pedagogy of the school. Drawing on the author's 40 years of research into how the most able students think and learn, this book provides a framework that has been extensively trialled in schools in eleven countries. . Themes include: Creating world class schools The High Performance Learning environment The High Performance Learning framework Advanced Cognitive Performance characteristics (ACPs) Values, Attitudes and Attributes (VAAs) Creating and leading a High Performance Learning school The role of parents, universities and employers. This invaluable resource will help schools make the move from good to world class and will be essential reading for school leaders, teachers and those with an interest in outstanding academic performance.

WORLD CLASS PRICING is the indispensable roadmap to take your pricing organization from its' current class to World Class. It is built upon the 5 Levels of World Class Pricing – what has become the industry standard for tackling pricing improvement amongst pricing professionals. The approach to pricing improvement shared in this book has been successfully applied by many of the worlds' leading companies including Exxon Mobil, GE, Michelin and J&J, among a host of others. It provides a positive vision of each step that needs to be taken on the journey to pricing improvement. Whether stuck firefighting at Level 1, cost-based pricing at Level 2, utilizing value-based pricing at Level 3, applying optimization at Level 4, or on the brink of achieving World Class at Level 5, this book has something for you.

Every school is different, but all schools face very similar challenges. Drawing on their combined teaching experience of over fifty years in both independent and state schools, educationalists David James and Ian Warwick have chosen ten questions that tackle the most difficult challenges that face schools today, and invited leading education experts to address them in stimulating and accessible essays, which are each under a thousand words. With contributions from John Hattie, David Blunkett, Doug Lemov, Anthony Seldon, Sandy Speicher, Tim Hawkes and many more, this insightful and engaging book features exclusive essays with some of the world's most well-known and well-respected thinkers and speakers in education, business and politics, accompanied by thought-provoking introductions. The contributors provide new perspectives on some of the issues that occupy educationalists today; they challenge conventional wisdom and, above all, put forward practical, workable, evidence-based solutions that can transform teaching and learning. World Class is a powerful manifesto for change that nobody interested in education today can ignore.

This collective biography on twelve world-class leaders provides timeless principles on how families as well as educational, civic, religious, and military organizations, can facilitate the development of exemplary leaders. The biographies and autobiographies of great leaders reveal the importance of an involved parent, happy childhood, plethora of "apprenticeships," rich formal and informal education, a steady stream of prodigious patrons, gracious critics, and a favorable fate. In addition to biographical data, this study synthesizes the various trends in leadership studies to develop a comprehensive model. A coherent theory on leadership has been elusive because scholars have focused on specific parts of leadership without recognition of the whole. The biographical data and synthesis of various leadership theories demonstrates that leaders share similar story lines in their development. The seven identified influences and the three stages of leadership development outlined in the book illustrate themes necessary for true leadership qualities to emerge within an individual. This book is intended for anyone interested in developing exceptional leaders.
