Geography, the study of the diverse environments, places, and spaces of Earth's surface and their interactions. It seeks to answer the questions of why things are as they are, where they are. The modern academic discipline of geography is rooted in ancient practice, concerned with the characteristics of places, in particular their natural environments and peoples, as well as the relations ...

~~geography | Definition, Types, History, & Facts | Britannica~~

People who study geography are known as geographers. Some geographers prefer to study geography as a natural science – these disciplines include environmental ecology, climatology, remote sensing and geomorphology. Others lean towards the study of geography as it pertains to the study of people and cultures in relation to
