In the end, there's only one reason to invest: to build wealth. You can cut it any way you like. You can say that you want to invest to support socially-responsible companies, or to fund your children's education, or just to be able to retire and not worry about money. But the root of the idea, the real goal of investing, is to build wealth.

As you have probably noticed, there are quite a few investing books out there. Many of them were written by some of the world's greatest investors. So, why should you read our book? Stock investing is more prevalent than ever, whether directly or indirectly through brokerage accounts, exchange-traded funds, mutual funds, or retirement plans. Despite this, the vast majority of individual investors have no training on how to pick stocks. And, until now, there hasn't been a truly accessible, easy-to-understand resource available to help them. The Little Book of Investing Like the Pros was written to fill this void. We believe the simplicity and accessibility of our stock picking framework is truly unique. Using real-world examples and actual Wall Street models used by the pros, we teach you how to pick stocks in a highly accessible, step-by-step manner. Our goal is straightforward—to impart the skills necessary for finding high-quality stocks while protecting your portfolio with risk management best practices. Our practical approach is designed to help demystify the investing process, which can be intimidating. This training will help set you apart from others who are largely flying blind. Pilots require extensive training before receiving a license. Doctors must graduate medical school, followed by a multi-year residency. Even those providing professional investment advice require certification. But, anyone can buy a stock without any training whatsoever. While buying stocks on a hunch and a prayer may not endanger your life, it can certainly put your finances at risk.

You Can Invest Like A Stock Market Pro is a how-to guide to help investors obtain market-beating returns from investing in stocks in the same manner that the stock market pros do to amass their fortunes. Because of the Great Recession that struck in 2007, many Americans have become leery about investing in the stock market. In an article written in USA Today by Al Neuharth in March of 2013, he states, "Most of us hope to get richer as life goes on. All of us should realize that the surest way to do that is by smart and regular investments in the stock market." Investing in the stock market is still one of the most effective ways for most people to get rich and best of all, a high IQ isn't needed to do so. Investors simply need to know how to invest the right way since most people invest the wrong way. You Can Invest Like A Stock Market Pro teaches investors how to invest the right way. It teaches investors how to invest like a stock market pro. Here's just a few of the exciting things taught within this book: How to pick stocks like the pros, how and where to find money to start an investment program, how to develop the mindset of the master investors, how to reduce risk while maximizing profits, how to use stock screeners to locate those hard-to-find hidden gems, how to use free powerful tools of the trade to gain an investor's edge, how to consistently beat the market over the long-term, and much, much more exciting information to put investors on a path to building wealth like the pros.

Use the Internet's investment information windfall -- just like the pros Today's web technologies give individual investors access to the same information as professional traders. Think Like a Trader; Invest Like a Pro narrows the knowledge gap even further, explaining how you can use this free or low-cost information to analyze and act on trading opportunities with the same skill, knowledge, and success as the best professional traders. You'll find detailed descriptions of the top websites that link you to accurate, high-level information needed to invest and trade stocks, bonds and commodity futures -- real-time market price and flow, custom analyses and analytics, and more. Author Christina Ray, a professional trader, gives you an insider's Internet roadmap that puts at your fingertips proven methods that let you: * Make short-term forecasts * Manage risk * Use new information for wiser, more profitable investment decisions

Over the past few decades, certified financial planner Andrew Horowitz has helped countless clients make loads of money in the market; now he's written a basic investing guidebook to share his expertise with the rest of us. of hours of stock investing research and decades of stock trading experience to teach you investment and trading strategies to help you make money in stocks. Pattersenn built and manages two personal stock portfolios that have earned well over 100% returns and beaten the S&P 500 by large margins. Pattersenn reveals additional trading strategies not covered in his first investment guide titled *You Can Invest Like A Stock Market Pro*. In a refreshing change from most stock investment books, investors learn exactly how to apply approaches used by the best stock investors in the world, like Warren Buffett and Peter Lynch to consistently build wealth over decades of investing. In *Now That You Can Invest Like A Pro*, you will learn time-tested trading and investing strategies that actually work and will work for you.

This book will help you become a better stock market investor. We've all heard the saying, "Those who cannot remember the past are condemned to repeat it." *Crash Proof Your Investment* is for both the stock market history enthusiast and the beginner and intermediate level stock market investor. The mistakes made during the worst periods in stock market history will be explored in this book, including the story of the most disastrous and the most recent crashes in America. No crash history would be complete without covering the 2010 Flash Crash, the 2008 Financial Crisis, the Dot-com bubble, and the Wall Street Crash of 1929. This historical context will shed light on the causes and lasting effects of these crashes. The results of savvy stock market analysis are shared in "The 9 Stock Market Crash Warning Signs Every Stock Investor Should Know," which is a perfect guide for putting the investor in a better position to predict the next stock market crash. To help protect your investment, we examine 7 strategies designed to protect your investment in a bear market or even in a full-blown meltdown. Topics such as dividend stocks, stop-loss orders, options trading, and much more are discussed in detail. The information covered will be useful for long investors who want to protect their portfolio investment and investors who have been burned one too many times in stock market declines. But, it is also for the short investor who would like to profit off the upcoming meltdown. Understanding a stock market crash is knowledge that every stock investor should gain if they want to play the stock market game effectively. Stock market investment strategies that protect your portfolio by not reacting inappropriately to stock manipulations are a must-have. Remember the countless investors who got burned in the 2010 Flash Crash because their stop-loss orders were triggered? The market recovered in minutes, leaving these traders with huge, unnecessary losses-in some cases up to 60%. To avoid this issue, in this book you will learn how to protect your investment without stop-loss orders. Content is tailored to your specific situation by offering 4 optional exercises to apply to your own portfolio investment as tools to help you invest more strategically in the future. Continually improving yourself as an investor will move you closer to meeting your investment goals. Books like this increase your odds of becoming that millionaire stock investor who vacations in exotic locations around the world as your investments cover your expenses. (Or just retiring without worry, if that's your goal.) Whatever your investment goals are, this book can help you get there. If this sounds interesting to you, click the buy button and buy the book today!
