WHAT IS THE STORY GRID? The Story Grid is a tool developed by editor Shawn Coyne to analyze stories and provide helpful editorial comments. It's like a CT Scan that takes a photo of the global story and tells the editor or writer what is working, what is not, and what must be done to make what works better and fix what's not. The Story Grid breaks down the component parts of stories to identify the problems. And finding the problems in a story is almost as difficult as the writing of the story itself (maybe even more difficult). The Story Grid is a tool with many applications: 1. It will tell a writer if a Story ?works? or ?doesn't work. 2. It pinpoints story problems but does not emotionally abuse the writer, revealing exactly where a Story (not the person creating the Story'the Story) has failed. 3. It will tell the writer the specific work necessary to fix that Story's problems. 4. It is a tool to re-envision and resuscitate a seemingly irredeemable pile of paper stuck in an attic drawer. 5. It is a tool that can inspire an original creation.

In grade school, she always had her nose in a book. In junior high, the other kids thought she was weird, because she actually liked reading those dusty old novels in literature class. All through high school, Goldilocks dreamed of writing a book of her own someday. But when she went to college, her parents persuaded her to study something practical. Goldilocks hated practical, and secretly she kept reading novels. But she was a very obedient girl, so she did what her parents told her. She got a very practical degree in marketing. After college, she got a job that bored her to tears—but at least it was practical. Then she got married, and within a few years, she had two children, a girl and then a boy. She quit her job to devote full time to them. As the children grew, Goldilocks took great joy in introducing them to the stories she had loved as a child. When her son went off to kindergarten, Goldilocks thought about looking for a job. But her resume now had a seven-year hole in it, and her practical skills were long out of date. The only jobs Goldilocks could qualify for were minimum wage. She suddenly realized that being practical had made her horribly unhappy. On a whim, Goldilocks decided to do the one thing she had always wanted more than anything else—she was finally going to write a novel. She didn't care if it was impractical. She didn't care if nobody would ever read her novel. She was going to do it just because she wanted to. For the first time in years, she was going to do something just for herself. And nobody was going to stop her.

A tour-de-force by rising indy comics star Gene Yang, American Born Chinese tells the story of three apparently unrelated characters: Jin Wang, who moves to a new neighborhood with his family only to discover that he's the only Chinese-American student at his new school; the powerful Monkey King, subject of one of the oldest and greatest Chinese fables; and Chin-Kee, a personification of the ultimate negative Chinese stereotype, who is ruining his cousin Danny's life with his yearly visits. Their lives and stories come together with an unexpected twist in this action-packed modern fable. American Born Chinese is an amazing ride, all the way up to the astonishing climax. American Born Chinese is a 2006 National Book Award Finalist for Young People's Literature, the winner of the 2007 Eisner Award for Best Graphic Album: New, an Eisner Award nominee for Best Coloring and a 2007 Bank Street - Best Children's Book of the Year. In Writing Anthropology, fifty-two anthropologists reflect on scholarly writing as both craft and commitment. These short essays cover a wide range of territory, from ethnography, genre, and the politics of writing to affect, storytelling, authorship, and scholarly responsibility. Anthropological writing is more than just communicating findings: anthropologists write to tell stories that matter, to be accountable to the communities in which they do their research, and to share new insights about the world in ways that might change it for the better. The contributors offer insights into the beauty and the function of language and the joys and pains of writing while giving encouragement to stay at it—to keep writing as the most important way to not only improve one ' s writing but to also honor the stories and lessons learned through research. Throughout, they share new thoughts, prompts, and agitations for writing that will stimulate conversations that cut across the humanities. Contributors. In October 1928 Virginia Woolf was asked to deliver speeches at Newnham and Girton Colleges on the subject of ' Women and Fiction ' ; she spoke about her conviction that ' a woman must have money and a room of her own if she is to write fiction ' . The following year, the two speeches were published as A Room of One ' s Own, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance – women and learning, writing and poverty – which helped to establish much of feminist thought on the importance of education and money for women ' s independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence – a call which sent ripples well into the next century. ' Brilliant interweaving of personal experience, imaginative musing and political clarity' — Kate Mosse, The Guardian 'Probably the most influential piece of non-fictional writing by a woman in this century.' — Hermione Lee, The Financial Times
