Focus on Personal Finance is a brief, 14-chapter book, covering the critical topics in Personal Finance courses. This 4-color, paperback text is designed and written to appeal to a range of ages, life situations, and levels of financial literacy. A unique aspect of this text is its active approach. This text will not only get your students thinking about their current situation and financial goals, but also encourage them to put these in writing to use as a guide and revise over the course of their lives. New for this edition, sections are oriented around specific action-items for students. The more a student involves themselves in the assessments, exercises and worksheets provided, the more they will discover about their current habits and how to improve them for greater financial freedom. Students have many different financial goals, but none are more important than having a basic understanding of financial issues and peace of mind with regard to their decisions. The ultimate goal of Focus on Personal Finance is to get students to this point as a first step to achieving the many financial goals they have set for themselves.

For courses in Personal Finance. A Hands-On Approach to Financial Planning The main feature of Personal Finance is its hands-on approach keyed to the concepts readers need to build their own financial plans. The text's seven parts are all pieces of a financial plan; Chapter 21 is the capstone. A running example throughout the book and a variety of end-of-chapter cases reinforce the practical aspects of planning. The Sixth Edition is fully updated with recent financial trends, such as lower interest rates, changing salaries, and rules for credit card use. With case studies and workable examples throughout, this book is an active tool readers can use to become comfortable managing their finances into the future. Also Available with MyFinanceLab MyFinanceLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts.
