[Philosophical Perspectives Educational Technology](#)

My strongest values in education are compassion for students, open-mindedness about what they are capable, and recognizing their differences. Educational technology allows me to be more compassionate, in that I can differentiate a lesson better, understand my students through their work, and provide more opportunities for student voice.

They are Perennialism, Essentialism, Progressivism, and Reconstructionism. These educational philosophies focus heavily on WHAT we should teach, the curriculum aspect. Perennialism. For Perennialists, the aim of education is to ensure that students acquire understandings about the great ideas of Western civilization.

[PHILOSOPHICAL PERSPECTIVES IN EDUCATION](#)

The form of philosophy of technology constituted by the writings of these and others has been called by Carl Mitcham (1994) “humanities philosophy of technology”, because it takes its point of departure from the social sciences and the humanities rather than from the practice of technology, and it approaches technology accepting “the primacy of the humanities over technologies” (1994: 39), since technology originates from the goals and values of humans.

[Philosophy of Technology \(Stanford Encyclopedia of Philosophy\)](#)

Philosophical perspectives are important because, when made explicit, they reveal the assumptions that researchers are making about their research, leading to choices that are applied to the purpose, design, methodology and methods of the research, as well as to data analysis and interpretation.

[A guide to ontology, epistemology, and philosophical ...](#)

Philosophical perspectives represent attitudes and values that individuals use to evaluate alternative action options and decide which ones are preferred. A individual rarely thinks about their philosophical perspective because it is something that is a result of their background and influences. It is not until a teacher or educator gets into the education field that they must understand and realize how their philosophical perspective influence the way they treat their students or decide ...

[5. Philosophical Perspectives - Foundations of Education](#)

Philosophical perspectives are worldviews that define the nature of the world, the individual's place in it, and the possible relationships to that world and its parts. Learning and instructional theories are developed with respect to a particular set of assumptions regarding what it means to know and learn.
