How to Master Piano Chords Quickly : 4 Steps -

Instructables

With your left hand you want to find the C key that is 1 octave below middle C (the one you've currently got your thumb resting on). Just count 8 notes down from middle C (including C) and that's where your left hand should be. With the key located, you want to rest the pinky finger of your left hand on that 'C' note.

Turn all of your mics down, then bring them in one-by-one. Play with the volume levels until you like how the piano is sounding in context of the mix. Once you've got your tone sounding good, use the volume fader on your piano bus to balance the piano with the rest of the instruments. How loud you want it will depend on the nature of the song.

As a general rule when you're first starting you want to aim for at least 20 minutes a day. In those 20 minutes you want to ensure you go over the language of music: Challenge yourself to identify the clefs, the brace, the stave, time signature, bar lines, double bar line, and basic rhythms (semibreve, dotted minim, minim, crochet, and quavers) In that time, you should also consolidate your knowledge of notes that you've learned and made sure you can find them quickly on the piano.

stylistic intent). 2. To master each of these, you need to practice them at least a little bit every day.

Learning Piano: The Complete Overview [PSH] - Piano University

In that case, you're looking at a minimum of 10 to 15 years of concentrated study with a master teacher, and hours per day of practice. Most people who want to learn the piano aim for something in between these two extremes. Whatever level you're hoping to achieve, your progress depends on how diligently and effectively you practice.
