analyzing time series data in order to extract meaningful statistics and other characteristics of the data. It is different from Time Series forecasting which is the use of a model to predict future values based on previously observed values. While time series analysis is mostly statistics, with time series forecasting enters Machine Learning.

Time Series Analysis For Beginners | by Perez Ogayo ...

Mathematical Model for Time Series Analysis. Mathematically, a time series is given as. $y_t = f(t)$ Here, y_t is the value of the
