"Exciting and engaging vocabulary instruction can set students on the path to a lifelong fascination with words. This book provides a research-based framework and practical strategies for vocabulary development with children from the earliest grades through high school. The authors emphasize instruction that offers rich information about words and their uses and enhances students' language comprehension and production. Teachers are guided in selecting words for instruction; developing student-friendly explanations of new words; creating meaningful learning activities; and getting students involved in thinking about, using, and noticing new words both within and outside the classroom. Many concrete examples, sample classroom dialogues, and exercises for teachers bring the material to life. Helpful appendices include suggestions for trade books that help children enlarge their vocabulary and/or have fun with different aspects of words"--

The Newbery Medal and Coretta Scott King Award-winning classic about a boy who decides to hit the road to find his father!from Christopher Paul Curtis, author of The Watsons Go To Birmingham!1963, a Newbery and Coretta Scott King Honoree. It's 1936, in Flint Michigan. Times may be hard, and ten-year-old Bud may be a motherless boy on the run, but Bud's got a few things going for him: 1. He has his own suitcase full of special things. 2. He's the author of Bud Caldwell's Rules and Things for Having a Funner Life and Making a Better Liar Out of Yourself. 3. His momma never told him who his father was, but she left a clue: flyers advertising Herman E. Calloway and his famous band, the Dusky Devastators of the Depression!!!!!! Bud's got an idea that those flyers will lead him to his father. Once he decides to hit the road to find this mystery man, nothing can stop him: not hunger, not fear, not vampires, not even Herman E. Calloway himself. Envision a cadre of leading scientists and practitioners working collaboratively on a highly focused program of education research that is tightly coupled with practice. Much of the research is carried out in school settings. Research influences educational practice, and the outcomes in practice inform further research efforts. The Strategic Education Research Partnership (SERP) is designed to make this vision a reality. It proposes a large-scale, coherent program of research and development that would put the problems of educational practice at its center, and focus on all stages necessary to influence practice. These include theory testing, the development and evaluation of instructional programs, the study of practice in context, and attention to taking innovations to scale. This book explains the features of SERP and the ways in which it would address the major challenges of linking research and practice. It is a call to mobilize the nation's resources and political will, the power of scientific research, and the expertise of our educators, to create a more effective research and development program for improving student learning.

A set of games was developed to facilitate vocabulary enrichment and math skills for fifth grade English Language Learners; however, for the purpose of this thesis, these students will be referred to as Spanish speakers or as Hispanic second language learners. Spanish language games focus on vocabulary words, their definitions, spelling, and pronunciation. The math game focuses on multiplication, division, and geometry. The bingo cards called Cosmo are designed to introduce and enhance student awareness of fifth grade curriculum encompassing science(C=ciencia), literature(O=obra), health(S=salud), mathematics(M=matematica), and orthography(O=ortografia). The vocabulary and definition cards are designed to be used together to broaden student comprehension during an academic school year. The 15 different vocabulary words and definitions selected to help students in science were not repeated in those 15 chosen to encompass the areas of literature, health, mathematics, or orthography. This 75 word and definition total were chosen carefully to give an overall view of what is studied in fifth grade. These games are designed to peak student interest, as well as to assist teachers in maintaining high interest in Spanish speaking classrooms while covering fifth grade curriculum. \*Appendixes present useful information to create the same games, as well as Teacher Tips, and a Player's Guide.
